

PRO STAINLESS

CLEANROOMS & HYGIENIC ENVIRONMENTS

Cleanrooms, Laboratories, Mortuaries, Hospitals and Food Processing areas demand increasingly higher hygienic standards to avoid contamination and reduce commercial risk. PRO Stainless produce high-end, ultra-smooth polished finishes, eliminating particles collection, ensuring super-clean surfaces. Our Hygiene products and solutions can be found in cleanrooms, laboratories, mortuaries, food processing areas, hospitals and medical facilities across Europe.

WHY PRO STAINLESS?

We follow best practice principles and guidelines, adhering to industry standard GMP (Good Manufacturing Practice). Your Cleanroom or Hygienic Environment will be easier to keep clean and maintain on an ongoing basis.

ULTRA-SMOOTH FINISHES FOR CLEANER SURFACES

Allowing fewer particles to accumulate on clean surfaces. If you need a 0.7 Ra surface finish or smoother, we can achieve your requirements.

LESS MAINTENANCE, EASIER CLEANING

PRO Stainless Cleanroom and Hygienic products are designed and crafted to reduce contamination traps. Making them easy to clean and maintain.

TIGHTER SEALS AND FLUSH FITS

We can work to tight tolerances as low as 0.2mm, ensuring a perfect fit and seal, further reducing any risk of potential contamination.

READY TO DISCUSS YOUR NEEDS?

Contact our team for an initial discussion on how PRO Stainless can help your upcoming project.
